

Jonah Jones earned his Applied Associates of Science in Architectural Technology from Coastal Carolina Community College in Jacksonville, NC, in May 2022. During his time there, he developed foundational skills in hand drafting, Revit, and 3D modeling and animation. Jonah is currently pursuing his Bachelor of Arts in Architecture at the University of North Carolina at Charlotte, with an expected graduation in May 2026. Following this, he plans to continue his academic journey by earning a Master's in Architecture at UNC Charlotte. During his undergraduate studies, Jonah served as Secretary for the UNC Charlotte chapter of the American Institute of Architecture Students (AIAS), where he contributed to planning and executing events for the students of the David R. Ravin School of Architecture. His academic interests center on set design, physical crafting, and general design studies. Jonah's diverse skill set includes proficiency in AutoCAD, 3ds Max, Rhino, Revit, Blender, Enscape, various rendering software, video animation, the Adobe Creative Suite, hand drafting, and fabrication. This comprehensive range of abilities reflects his capacity to integrate design innovation with technical expertise to deliver impactful architectural solutions.
